

Save Energy at Home with Natural Gas Efficiency

Save money, improve comfort and ensure a cleaner environment with energy savings offers for residential customers from National Grid.

- Free Home Energy Assessment
- ENERGY STAR® Thermostats
- Outdoor Boiler Reset Controls
- High-Efficiency Heating Equipment
- High-Efficiency Water Heaters
- Home Weatherization — Air Sealing and Insulation

nationalgrid

The power of action.™

Wouldn't it be great if you could save money, improve the efficiency of your home, and help ensure a cleaner environment?
You can with efficiency from National Grid.

Follow these steps to participate:

- 1) Consult your qualified heating contractor or plumber.
- 2) Complete this application and determine anticipated rebate.
- 3) Return application with a copy of your dated invoice or receipt. (Remember, your invoice or receipt must include the complete model number and cost of each unit installed.)

2009 Residential Energy Efficiency Rebates

| PRODUCT | REBATE |
|---|----------|
| REPLACEMENT THERMOSTATS** | |
| ENERGY STAR rated programmable thermostats** Maximum 2 per household. | \$25/ea. |
| OUTDOOR BOILER RESET CONTROLS | |
| Add on unit attached to forced hot water boiler | \$100 |
| HIGH-EFFICIENCY HEATING EQUIPMENT | |
| Furnaces (forced hot air) AFUE* ≥ 90% rating | \$200 |
| Furnaces (forced hot air) AFUE* ≥ 92% rating & ECM [±] motor | \$400 |
| Furnaces (forced hot air) AFUE* ≥ 94% rating & ECM [±] motor | \$600 |
| Boilers (steam with electronic ignition) ≥ AFUE* 82% rating | \$500 |
| Boilers (forced hot water) AFUE* ≥ 85% rating | \$500 |
| Boilers (forced hot water-condensing) AFUE* ≥ 90% rating | \$1,000 |
| HIGH-EFFICIENCY WATER HEATERS | |
| Indirect water heater attached to a natural gas ENERGY STAR forced hot water boiler | \$300 |

** Programmable thermostats must be installed by a contractor at the time of furnace or boiler replacement.
* AFUE = Annual Fuel Utilization Efficiency
± ECM = Electronic Commutated Motor

20% Rebate on Weatherization - up to \$750

Weatherization can make your home more energy efficient year round. With some simple, easily installed measures, your heating and cooling systems will be more effective. You'll reduce energy consumption and save money. Plus you'll be doing your part to help the environment.

Optimize your home's efficiency and help cut energy bills with weatherization. When you install any or all of the following qualifying measures, you'll receive a 20% rebate, up to \$750 per residential heating account.

Attic Insulation • Attic stairs insulator • Wall insulation • Basement or crawl space insulation • Rim joist insulation • Heating system duct/pipe insulation • Attic ventilation* • Ductwork leakage testing and sealing • Infrared inspection • Air infiltration testing and sealing

Sealing and insulating is a cost effective way to improve efficiency and comfort in your home. Weatherizing is easy. Select a pre-approved contractor to insulate and air seal and you can receive a rebate for 20% of the cost up to \$750. The contractor will even complete and submit the weatherization rebate form. Do-it-yourself installations do not qualify.

Call 1-800-292-2032 or email ngridinfo@efi.org for a list of qualifying contractors.

*Done in conjunction with attic insulation only.

Have You Analyzed Your Home Energy Use?

A home energy assessment is the first step in making your home more efficient. An assessment will check your home energy use and provide recommended measures you can make to improve efficiency and save money. National Grid offers two assessments.

- **Try our Online Energy Analyzer** for a quick and easy way to evaluate your energy use and receive customized tips. Visit www.thinksmarththinkgreen.com
- **Our FREE In Home Energy Assessment** is the next step to receive recommendations for improving efficiency based on a thorough evaluation of your home. Request an in home audit on this application or call 1-800-860-0815 today.

Residential Natural Gas Energy Efficiency Rebate Application

Please review terms and conditions. Form must be completed entirely.

Customer: _____ National Grid Gas Account #: _____
(Name and address where equipment was installed)

Street: _____ Existing Dwelling New Construction

City: _____ State: _____ Zip: _____ Phone: _____

National Grid Residential Energy Efficiency Programs Terms & Conditions

- Incentives** - Subject to these Terms and Conditions, this program is offered by KeySpan Gas d/b/a National Grid ("the Company" or "National Grid"). The Company, through its contractual vendor, Energy Federation Incorporated (the "Vendor"), will pay incentives to eligible customers in the Company's Service Territory, for the purchase and installation of the equipment/products described in this literature and within this application.
- Customer Eligibility** - Equipment installed from 6/1/09 to 12/31/09 is eligible. It must have been installed at the installation address listed on this application and the required documentation listed must be post marked by the Vendor, no later than 1/31/10. Rebate programs are available to existing National Grid gas heating customers and customers that convert from oil to gas heat. Check www.thinksmarthinkgreen.com frequently for program updates or installation extensions.
- Post-Installation Work Verification** - The Company reserves the right to perform a verification of the specified installation. If the Company and/or Vendor determines that the equipment was not installed in a manner that is consistent with program guidelines, the Company and/or Vendor may require that the installation be modified before making any incentive payments. The cost of such modifications is the responsibility of the customer. I hereby authorize the Company to release my energy use information to Energy Efficiency Program Sponsors (EEPS) and System Benefit Charge (SBC) program administrators and/or its designee. I understand that such information will be kept confidential and used only for the purpose of determining program eligibility and energy savings.
- Incentives** - All installations must be completed in conformance with state and local code requirements and by qualified contractors. Self-installs of programmable thermostats will not qualify for rebates. Programmable thermostats must be installed by a contractor while replacing a furnace or boiler.
- Proof of Proper Installation** - As part of its incentive application, the Customer is required to submit dated copies of all paid invoices documenting the installation (including all materials, labor and equipment invoices) which reflect the actual cost of purchasing and installing the equipment. If label is unavailable, manufacturer specification sheet with model number matching invoice may be substituted.
- Indemnification** - Customer shall defend, indemnify and hold harmless the Company and its officers, directors, employees, agents, servants and assigns from and against any and all losses, claims, demands and/or liability for damage to property, injury or death of any person, or any other liability incurred by the Company, including all expenses, legal or otherwise, arising out of or related to the equipment or installation, except to the extent attributable to the negligence of Company. In no event shall Company's liability to Customer exceed the incentive amounts.
- Limited Scope Review** - The scope of review by the Company and the Vendor and their Inspector of the installation of the equipment is limited solely to determine whether incentives are payable. It does not include any kind of safety or code review and should not be relied upon as one.
- Incentive Amounts** - The Company will provide incentives for approved heating, water heating, thermostat, or boiler reset control equipment, up to incentive amount indicated in the program literature and within this application.
- Payment** - The Company, through the vendor, expects to make incentive payments to eligible customers within 45 days of a satisfactory work verification. The customer must refund any incentive made to the extent the contractor or equipment does not satisfy program requirements.
- No Warranties** - The Company and the Vendor do not endorse, guarantee or warrant any particular contractor, manufacturer or product installation. The Company and the Vendor do not make any representation of any kind regarding the results to be achieved by the equipment or the adequacy or safety of such equipment.
- Changes in the High-Efficiency Heating, Indirect Water Heating, Thermostat(s), or Boiler Reset Control Program - Equipment Incentive Program/Tax Liability Conditions and details of the High-Efficiency Heating and Indirect Water Heating Incentive Program** are subject to change without prior notice and incentive offers may increase or decrease over time. The Company reserves the right to modify or terminate the Incentive Program without notice. Participants of the program may be subject to tax liability for the value of goods and services received through the program pursuant to state or Federal income tax codes. The Company is not responsible for any tax liability which may be imposed as a result of receipt of the rebate by the Customer.
- Contractor Insurance** - The Company is not responsible for any damage that may be caused by or arise out of an installation of any equipment. The customer is responsible for selecting contractors who are qualified and carry adequate insurance coverage.

National Grid is one of the largest investor-owned energy companies in the world. In the US, we serve nearly 5 million electric and 3.4 million gas customers in Massachusetts, New Hampshire, New York and Rhode Island. Save energy and money with our award-winning efficiency programs. **Visit www.thinksmarthinkgreen.com.**
